The vine

Plot /climat Les Bressandes

History It is said that three young ladies from Bresse gave their name to the former quarry, which was later filled in and planted with vines. More likely, the name originates from Jean Bressand, advisor to the Bishop of Beaune in the 13th century.

Soil The soil is composed of ferruginous clay, silt, and abundant outcroppings of friable limestone.

Our plot(s) Surface area: 94 ares. The plot is located at the top of the hillside, facing east. With a slope reaching up to 15%, it is among the steepest of the vineyard.
